President Message

To the CMHA Membership,

As a new season is fast approaching, it is only fitting to begin by recognizing the hard work and devotion of players, parents and volunteers who contributed to making the 2009/10 CMHA hockey season a successful one for all.

Renewing old friendships, making new ones and building a wealth of good memories to cherish for years to come, makes hockey a truly fulfilling and satisfying experience for all participants at all levels.

The spirit of hockey is based on teamwork, respect and great fun. Kids developing new skills, kids learning about leadership and fair play, and kids having fun in a safe and respectful environment are goals of the CMHA executive.

As an organization, it is the responsibility of the CMHA to ensure that minor hockey continues to provide the best experience for our young athletes at all levels. To achieve this end, improvements and initiatives were undertaken to contribute to the ongoing development of hockey this past year.

New additions to the CMHA Executive will only enhance those dedicated Executive members who are serving their second year of their mandate, and the dedicated Coaching staff and team Managers will also serve to bring further improvements to the organization that will serve to enhance the overall hockey experience for all.

Hockey is all about the kids. If they have fun, have room to grow and feel safe in the hockey world, then we will all have achieved success in minor hockey.

Seeing the game through the children's eyes is the best way to guarantee that we, the volunteers, supporters and parents, will never lose the true focus and spirit of the game. As we continue to work together as a team, we can look forward to enjoying an even greater hockey season in 2010/11

Sincerely

Hank Rowlinson
President, Casselman Minor Hockey Association
